Dear Mr President, Dear Agim,

I congratulate you on your unanimous election as President of the Kosovo Football Federation.

We are all united in our grief following the sudden loss of our dear friend and colleague, Fadil. I am confident that he would be very happy to see you elected the new KFF President. Having served so diligently as Vice President, there is no doubt that you are the best person to step into this leadership role - and I trust in your commitment to football in Kosovo and your dedication to drive forward the developments projects that are already underway. Access to football pitches is fundamental to playing the game and I strongly encourage you to continue this important work to build and provide safe and practical facilities as much as possible.

I wish you all the very best, Agim, and remain at your disposal for any assistance you may require. Please consider UEFA your football family and know with absolute certainty that you can knock on our door for support, knowledge and guidance whenever you may need it.

Yours sincerely,

U E F A
